

Our Kids are your Kids - Virtual Rally for Our Children

Wednesday, February 17 from 11:00 – 12:30

[Click here to RSVP](#)

Dear Families, Students, and School Staff:

Please join us to share with our elected officials your stories, listen to concerns, and demand answers to the questions of ...

1. **Equity** – our children are publicly funded and should be treated the same as children attending public school – funding increases must be the same for our 4410 and 853 schools as public schools - (digital equity - access to iPads/computer devices and Wi-Fi)
2. **Access** – Children in our schools have a right to a certified special education teacher. The salary disparity between our teachers and public schools has grown so large it is impossible for our schools to recruit and retain certified teachers.
3. **Quality** – Children in our schools are entitled to high-quality instruction and programs. It is becoming increasingly difficult given the excessive teacher turnover and the lack of adequate funding.
